

Shield Marine Services

Global Cruise Ship Repair & Refit Support

shieldservicesgroup.com

Global Cruise Ship Repair & Refit Support

Shield Marine Services supports cruise operators throughout all stages of vessel maintenance, refurbishment and refit activity.

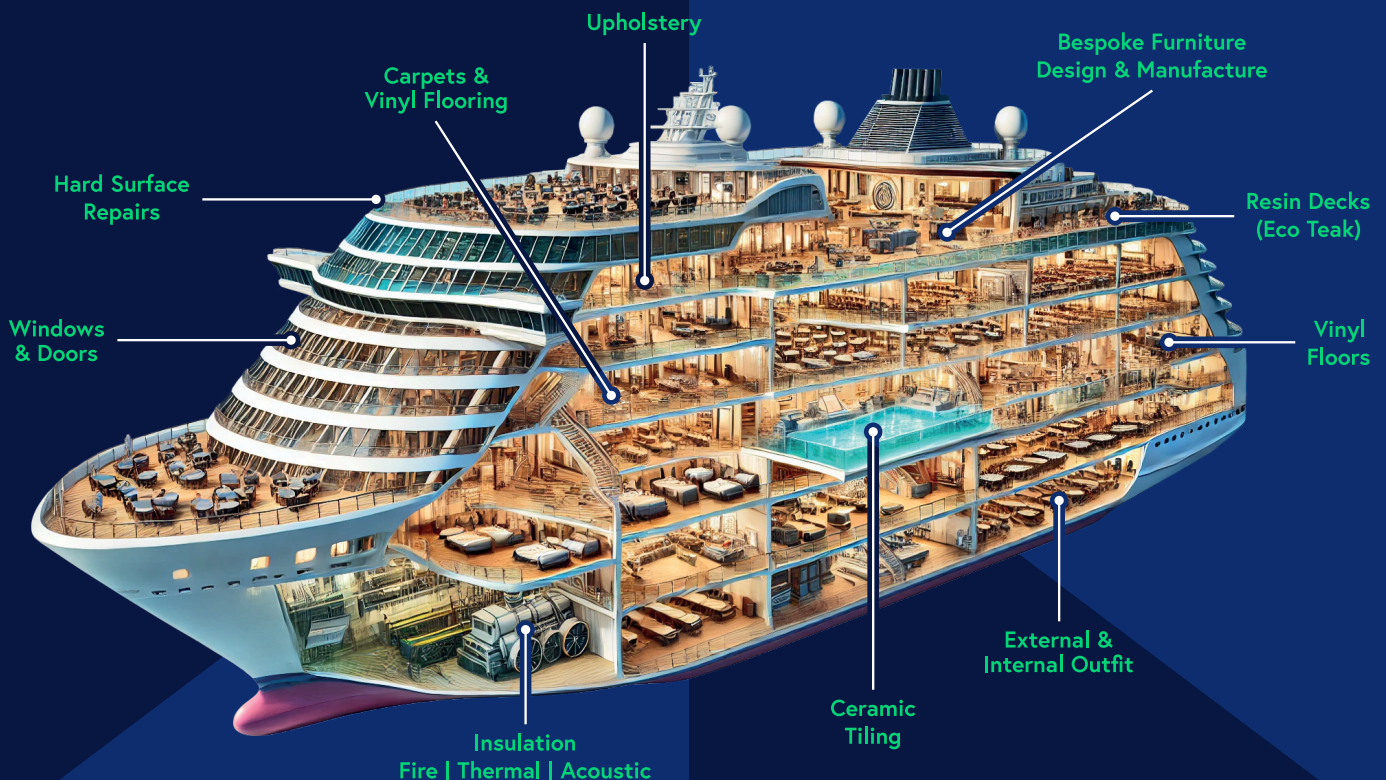

The business delivers both planned and reactive support services, including dry-dock refits, in-service maintenance, accommodation upgrades and specialist marine outfitting works.

Our teams understand the challenges of operating within live marine environments where programme control, safety, compliance and coordination are critical to successful delivery.

Core Services

- Marine Flooring Systems
- Marine Insulation Services
- Marine Outfitting, Upholstery & Interior Refurbishment
- Cruise Refit & Dry Dock Support
- Strategic Procurement & Supply Chain Management

Our Services

Compliance & Assurance

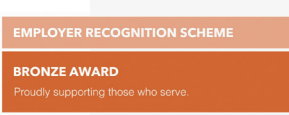

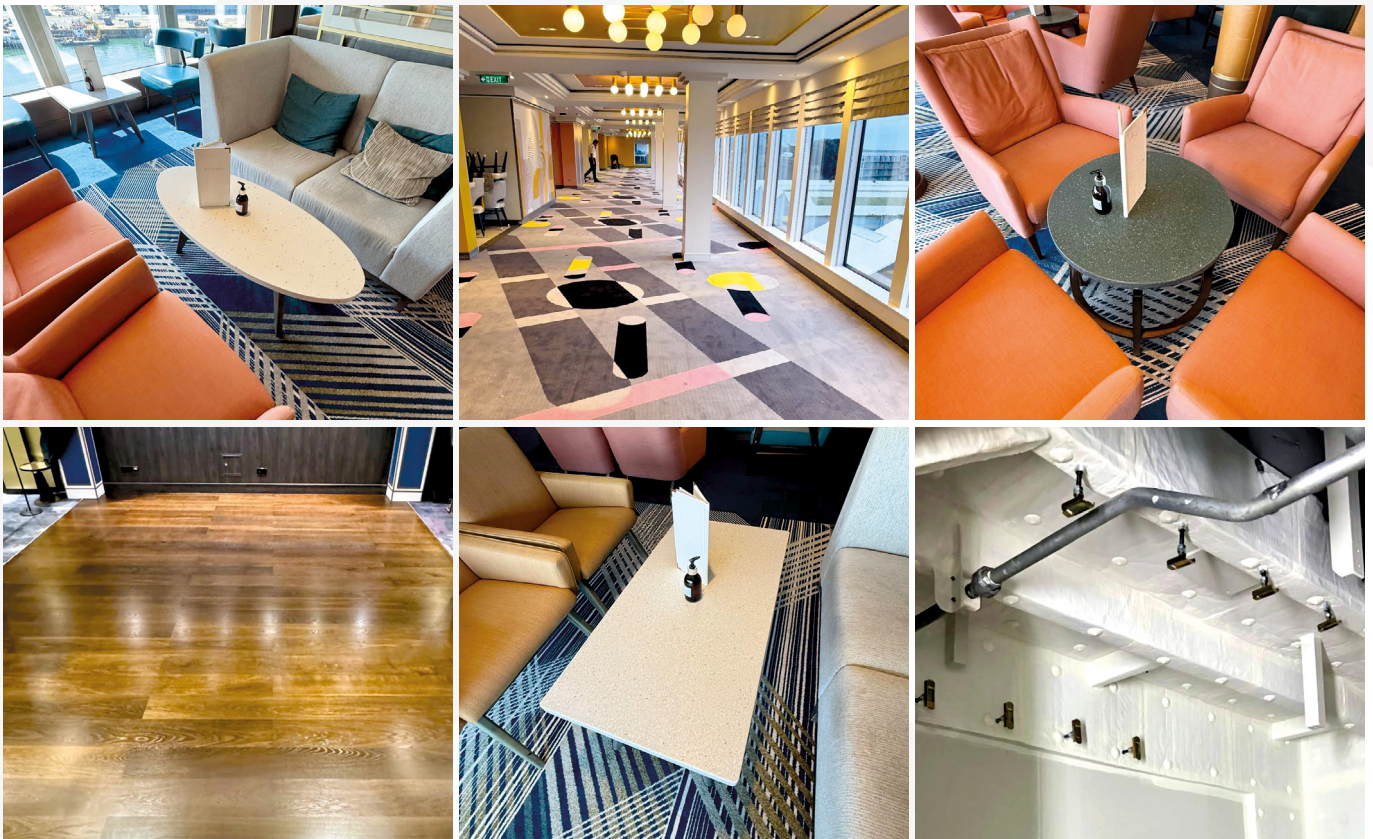

Shield Marine Services operates with a strong focus on compliance, operational assurance and controlled delivery.

The business supports projects in accordance with recognised industry and quality standards, including:

- ISO 9001 Quality Management
- ISO 14001 Environmental Management
- ISO 45001 Occupational Health & Safety
- Cyber Essentials Plus
- JOSCAR Registration
- Marine & offshore compliance requirements
- IMO & SOLAS aligned working practices
- OEM-approved material sourcing principles

Safety, quality and operational control remain central to all project activities.

Strategic Expansion into Southampton

Southampton remains one of Europe's most significant cruise ship operational centres, supporting major cruise brands, vessel operators and marine service providers.

The new Southampton headquarters represents another significant milestone in the continued growth of Shield Marine Services and reinforces the company's commitment to supporting the global marine industry with reliable, professional and technically capable delivery solutions.

The Southampton operation forms part of Shield Marine Services' wider multi-location delivery model, supporting projects across the UK and internationally through established operational bases and project teams.
